

An aerial photograph of a road intersection, possibly a roundabout or a complex junction, viewed from a high angle. The image is dark and grainy, with a prominent grid pattern overlaid on it, suggesting a technical or engineering theme. The grid lines are light gray and intersect at various angles, creating a complex geometric pattern across the entire image.

SHAPESHIFTER II

FAST TRACK

BENTLEY

Shapeshifter II

Change of heart. Change of mind. If you could have any superpower, what would it be? From ancient mythology to superhero movies, the ability to change forms carries with it both the power to hide in plain sight or to be the champion. Both can be extraordinary.

Shapeshifter II taps into all that possibility, with the ability to play either end—the quiet constant or the center of attention. Sixteen colors explore neutrals from subtle and nuanced to bold and dynamic. With a shimmery use of light and shadow, each colorway is a magical mix of changeable shades and texture. Which form will you take? The choice is yours, but remember, with great power comes great responsibility.
