Introducing **EliteFlex™ 6 ft Cushion**. A new
flooring platform from Bentley.

Premium fibers guarantee the best possible appearance over the life of the product.

We choose only premium fibers like Bentley Premium™ Nylon, a high-performance yarn system designed to recover over and over again. All of Bentley's yarns are engineered to resist soiling and staining, and remain resilient, retaining texture and color even under the most challenging conditions.

Product platforms designed to address existing conditions make installation easier.

We design flooring products that resolve the most common installation issues.

EliteFlex 6 ft Cushion installed with Healthbond™ 2399 Adhesive tolerates up to 100% RH. No RH or pH testing required.

EliteFlex 6 ft Cushion is PVC free and therefore will not negatively react with moisture in the slab, so there is no cause for concern about material degradation or odor. It is also approved to install over VAT, effectively eliminating the cost of abatement.

Dimensionally stable products install with consistency and longevity.

With two distinct layers of stabilizing material embedded in the construction, EliteFlex 6 ft Cushion won't shrink away at the seams or across the floor when products are not managed correctly or properly climatized.

Products engineered to recover to like-new condition, hold up in heavy, commercial traffic.

EliteFlex 6 ft Cushion have multiple layers specifically designed to absorb the impacts of the heavily trafficked floor. In addition to providing comfort underfoot and

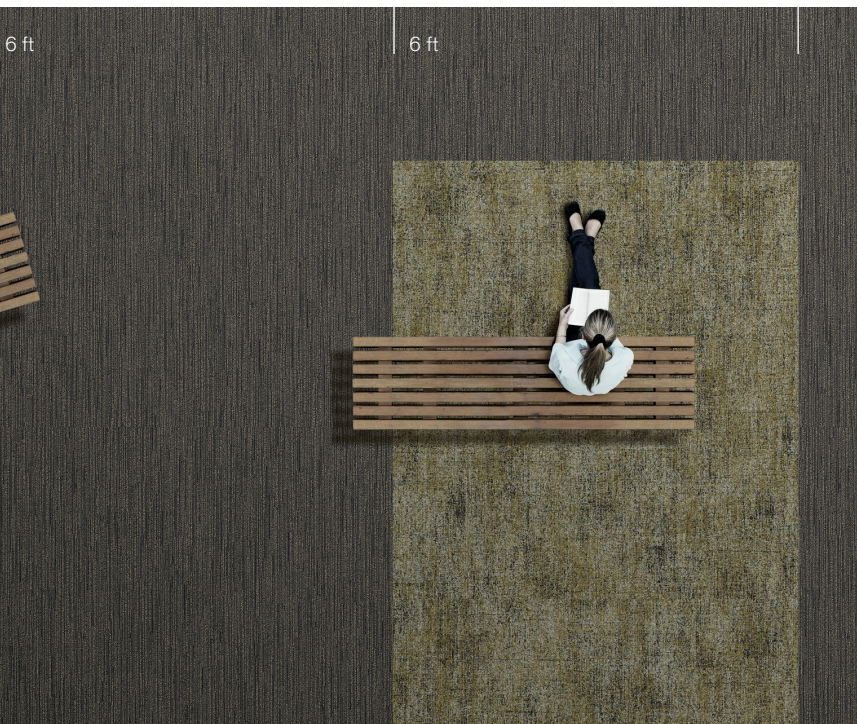

reducing user fatigue, our high-density, PVC free cushion has a long-lasting resiliency that minimizes wear and tear, extending the appearance of the face fiber by up to 50%.

We know maintenance is the best way to protect an investment in flooring. Traffic, soiling, and spills can destroy even the most beautiful installations. This performance construction includes a moisture impermeable layer that keeps spills close to the surface for easier cleanup. EliteFlex installations sealed with PermaWeld Premium Seam Sealer, ensure moisture does not migrate through the seams. And the structurally stable,

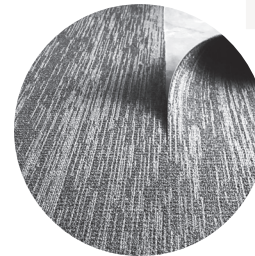

Bentley has been making beautiful, award-winning, commercial carpet for over 40 years. All the while, we've remained convinced the success of our installations depends on our commitment to manufacturing excellence, front to back.

Recycled Content
EliteFlex 6 ft Cushion backing structure
contains 22% pre-consumer and 22%
post-consumer recycled content.

When we say 6 ft, we mean it. EliteFlex 6 ft Cushion arrive in 6 ft wide rolls and install seamlessly.

six-foot-wide roll format is the perfect runway for larger equipment, simplifying the maintenance process.

Compatible formats make material transitions smooth and seamless.

EliteFlex 6 ft Cushion with 5 mm Luxury Vinyl Tile are both high-performance choices for public institutions like schools and hospitals. They can be installed side by side, seamlessly. No transition strips required.

Well-being is the priority when material choices are made that contribute to more comfortable, healthy, and safe environments.

EliteFlex 6 ft Cushion, like the entire Bentley carpet offering, is PVC free in alignment with the Living Building Challenge's Red List Free requirements.

Interior spaces benefit from an EliteFlex 6 ft Cushion

installation with improved acoustics; even the ambient room temperature is warmed in winter months, by its insulating effect on the slab. And Bentley's solution-dyed yarns never include topical soil and stain inhibitors or antimicrobial treatments, which can be harmful to the environment.

Guaranteeing beautiful, long-lasting flooring installations builds lifelong relationships.

We appreciate the investment you make in flooring and are dedicated to building trust and confidence in the products and services we provide. Bentley's EliteFlex 6 ft Cushion is delivered with a limited lifetime warranty*, guaranteed for the life of the installation.

Sustainability

EliteFlex 6 ft Cushion is certified Cradle to Cradle Silver, NSF® 140 Gold, and CRI Green Label Plus. Both meet California Proposition 65, the strictest regulation of environmental chemicals of concern, nationally.

Warranty

*EliteFlex 6 ft Cushion is covered by our limited lifetime warranty for problems associated with edge ravel, delamination, tuft bind, and moisture penetration.
